

SUKHPREET K. SANDHU

Data Analyst

(604) 614-2861 | sandhusukhpreet.shs@gmail.com | [linkedin.com/in/sukhpreet-sandhu](https://www.linkedin.com/in/sukhpreet-sandhu) | github.com/sandhu-sukhpreet

PROFILE

Data Analyst with hands-on experience building end-to-end BI dashboards, cloud ELT pipelines, and network analyses. Skilled in SQL, Python, Power BI, Snowflake/dbt, and AWS, turning raw operational and public datasets into clear, decision-ready insights. Google-certified in Data Analytics, with a Computer Science degree (Distinction).

TECHNICAL SKILLS

Data Engineering & Cloud: Snowflake, dbt, AWS S3, AWS Glue, Amazon Athena, ELT pipeline design, data warehousing (RAW → staging → marts)

Analysis & Programming: SQL, Python (pandas, NumPy), statistical analysis, data cleaning & preprocessing, data modeling

Visualization & BI: Power BI, NetworkX, Gephi, dashboard development, KPI reporting, business intelligence, Matplotlib

Databases & Tools: MySQL, MongoDB, MySQL Workbench, Jupyter Notebook, Git/GitHub, Excel, Docker, VS Code

EXPERIENCE

Junior Data Analyst (Client Project) — Calgary Pro Plumbing

June 2026 – July 2026

Business Intelligence Dashboard | Calgary, AB

- Developed an end-to-end Business Intelligence dashboard using SQL and Power BI for a residential and commercial plumbing business.
- Cleaned and analyzed operational data to identify revenue trends, technician performance, and customer satisfaction metrics.
- Designed interactive dashboards with KPI cards, filters, and visualizations to support business decision-making.
- Produced documentation covering business understanding, data preparation, analysis, and recommendations.

Operations / Project Support Assistant — Golden Star Drywall

Dec 2021 – Apr 2025

Part Time | Calgary, AB

- Organized invoices, job records, and internal documentation using Excel and shared cloud storage, improving record accuracy and retrieval time by approximately 25%.
- Helped introduce basic task-tracking and workflow practices that reduced missed or delayed follow-ups by approximately 15%.

DATA PROJECTS

Netflix Data Analytics Pipeline

Mar 2026

Snowflake, dbt, AWS S3, SQL

- Built an end-to-end ELT pipeline using S3, Snowflake, and dbt to ingest and transform the MovieLens dataset (20M+ ratings).
- Designed a layered warehouse architecture (RAW → staging → marts) to structure raw data into analytics-ready datasets.
- Developed modular dbt models to clean, standardize, and join ratings, tags, and metadata into fact and dimension tables.
- Generated analytical datasets enabling insights on user engagement, rating distributions, and genre trends.

YouTube Trending Data Lake — AWS Serverless Analytics

Feb 2026

Amazon S3, AWS Glue, Glue Data Catalog, Amazon Athena, SQL

- Designed a serverless AWS data lake using S3, Glue Crawlers, and Athena to analyze 400K+ trending records across 10 countries.
- Implemented a Hive-style partitioned S3 structure to optimize Athena query performance and reduce data scan costs.
- Automated schema discovery with Glue Crawlers and performed SQL aggregations to generate regional engagement insights.

Calgary Transit Network Analysis

Jan 2025 – Apr 2025

Python, NetworkX, pandas, NumPy, Matplotlib, Gephi, Power BI

- Modeled Calgary's public transit as a multilayer network (bus, MAX, CTrain) using GTFS data and NetworkX.
- Applied centrality measures and community detection to evaluate network efficiency and connectivity.
- Visualized transfer points, bottlenecks, and route overlaps using Gephi and Power BI for actionable insights.

EDUCATION

University of Calgary — B.Sc. Computer Science

Graduated Dec 2025

Distinction, GPA 3.8 | Calgary, AB | Dean's List (3 terms), Jason Lang Scholarship (2 terms)

Relevant coursework: Fundamentals of Network Analysis and Data Mining, Database Management, Data Structures, Algorithm Design and Analysis

Langara College — Diploma in Computer Science

Graduated Dec 2019

Distinction, GPA 4.0 | Vancouver, BC | Dean's Honour Roll (4 terms)

CERTIFICATIONS

- Data Analytics Certificate — Google (May 2026 – Present)
- AI Essentials Certificate — Google (June 2024)
